

Designed to support infection control and easy cleaning

- Completely smooth exterior with no dirt-traps
- One-wipe clean
- Touch-free dispensing design – less contamination
- Lockable design providing a fully enclosed unit
- Single sheet dispensing – only touch the sheet you use
- Sloped and flat-to-wall design to deter collection of dust or other contaminants
- High capacity = less refills = less contact / contamination opportunities and less requirement to open and clean

Touch free
